1 Introduction

This report forms an addendum to the Sustainability Appraisal Report (ENVIRON February 2011) for the West Northamptonshire Pre-Submission Joint Core Strategy January 2011¹The West Northamptonshire Pre-Submission Joint Core Strategy and accompanying SA Report were subject to six weeks' consultation. The West Northamptonshire Pre-Submission Joint Core Strategy received a number of consultation responses, which have been taken into account by the West Northamptonshire Joint Planning Unit (WNJPU) in setting out the Proposed Changes. This addendum accompanies the Proposed Changes to the Pre-Submission version of the West Northamptonshire Joint Core Strategy (WNJCS) and sets out the assessment of the Proposed Changes to the WNJCS.

This report is set out in two volumes. Volume 1 – the SA Report – is structured as set out below:

- Chapter 1 – Introduction;
- Chapter 2 – Background;
- Chapter 3 – Sustainability Appraisal Methodology;
- Chapter 4 – Results of the Sustainability Appraisal;
- Chapter 5 – Summary and Conclusions; and
- Chapter 6 - Next Steps.

Volume 2 consists of the revised Appendix D from the 2011 SA. Volume 2 replaces this Appendix and should be read alongside Volume 1: SA Report

¹West Northamptonshire Joint Planning Unit (2011) West Northamptonshire Joint Core Strategy, Pre-Submission. Available from: <http://www.westnorthamptonshirejpu.org/gf2.ti/f/278178/6794117.1/PDF/-/WNPSJCS.pdf>

2 Background

The Emergent Joint Core Strategy (JCS) was consulted on during Summer 2010, all of the feedback on the Emergent JCS consultation was used to inform the policy direction and proposed development areas detailed in the next version of the JCS, known as the 'Pre-Submission Joint Core Strategy'. The Pre-Submission JCS, accompanied by an SA Report prepared by ENVIRON, was subject to a formal stage of consultation in February and March 2011. The amount of development proposed in the Pre-Submission JCS is significantly reduced from that proposed in the Emergent JCS which reflects changes to the economic landscape, results of detailed studies and consultation responses.

Following the formal stage of consultation on the Pre-Submission in light of the representations received and changes to national planning policy the Joint Strategic Planning Committee has recommended further changes be made to the Pre-Submission Joint Core Strategy. These 'Proposed Changes' are considered necessary to ensure the Strategy is sound. The vast majority of the changes are simply to factually update the plan or to correct minor drafting errors and these are termed minor changes. The changes proposed do not alter the vision and the spatial strategy. The more significant changes proposed are set out below.

2.1 A new Objective 16

The Proposed Changes identify an additional objective to the JCS. Objective 16 refers to the need to conserve and where possible enhance important heritage assets. Whilst heritage is mentioned in Objective 15 it was considered reference to heritage and the need for its appropriate protection should be expanded in an additional and separate objective.

2.2 The Spatial Strategy

The Spatial Strategy remains unchanged other than minor rewording to update the section and to update the housing, retail floorspace capacity and employment figures it contains. Revised housing figures take account of new planning consents since the Pre-Submission version was first published which reduces the remaining housing requirement from 21,370 homes to 19,810 homes. The job numbers are increased from 16,000 to 19,000 (as explained under the heading Economic Advantage below). Retail floorspace capacity is reduced largely due to a reduction in available spending, although the Grosvenor Centre redevelopment remains unchanged and is a key element for delivery within the plan.

The hierarchy of towns and centres and the distribution of the development between these places remains unaltered in the JCS. This includes maximising the use of land and buildings within the existing urban areas of the towns and by developing new Sustainable Urban Extensions (SUEs).

2.3 Sustainable Development

The overall aim of the Pre-Submission JCS is to deliver sustainable development and this aim continues and is supported by Proposed Changes which ensure the policy basis is robust and in line with the new National Planning Policy Framework. Proposed Changes include some rewording of the Pre-Submission JCS Policy on Sustainable Development Principles (Policy S10) including reference to development being designed to improve environmental performance, energy efficiency and adapt to a changing climate over its lifetime. A new policy titled Low Carbon and Renewable Energy (Policy S11) is introduced

via the Proposed Changes which requires major development to contribute to reductions in carbon emissions.

2.4 Connections

The Proposed Changes add further detail to the delivery of improvements to the A45 between Junction 15 of the M1 and the Great Billing Junction at Northampton. Reference is also made to A43 Kettering to Northampton Improvements at Policy C3 titled Strategic Connections.

2.5 Economic Advantage

A central and continuing theme for the JCS is to secure economic stability for the area and a range of job opportunities.

Since the consultation on the Pre-Submission JCS Northampton has been awarded an Enterprise Zone. The Northampton SEMLEP Waterside Enterprise Zone will support the regeneration of Northampton town and bring with it some 7,000 new jobs. Northampton University has recently announced its intention to move to the Waterside area of Northampton. Due to this new focus of employment opportunities and higher level education provision the Proposed Changes envisage the location of a Technology Realm within the Enterprise Zone which will benefit from this synergy. Hence the reference to a Technology Realm located at Northampton North Sustainable Urban Extension will no longer be sustainable and the Proposed Changes take this into account.

The Proposed Changes make provision for 19,000 new jobs increasing the number of jobs by 3,000 from the figure stated in the Pre-Submission JCS version. This increase seeks to ensure a range of jobs are provided and to acknowledge that although Northamptonshire has remained reasonably resilient to the recent economic downturn, some jobs have been lost.

There is no change proposed to the need to protect existing employment sites and the town centres of Northampton and Daventry will continue to be the focus of regeneration, renewal and jobs growth. The strategic role of Daventry International Rail Freight Terminal (DIRFT) and Silverstone Circuit is maintained within the JCS, and SUEs in all four of the West Northamptonshire towns will continue to provide for local employment opportunities.

2.6 Housing

The Proposed Changes to the housing section of the JCS reflect the updated housing numbers as in the Proposed Changes to the Spatial Strategy. Further Proposed Changes are made in relation to affordable housing requirements to take account of the Government's announcement of a new affordable rent model. This allows Registered Providers of affordable housing to charge rents on new build developments and relets. The Affordable Rent tenure has now been included within the definition of affordable housing set out in the National Planning Policy Framework and the Strategic Housing Market Assessment (SHMA) was consequently updated to reflect the Affordable Rent tenure.

Policy H2 of the JCS deals with the proportion of affordable housing required on development sites. Proposed Changes to this policy include the introduction of a revised percentage of affordable housing requirements for developments in rural and urban areas and revised requirements for affordable housing and site size thresholds to reflect the results of the updated SHMA.

Policy H3 refers to the provision of housing in rural areas as rural exceptions sites. Proposed Changes to this policy are as a consequence of the provisions of the National Planning Policy Framework which encourages Local Planning Authorities to consider the provision of market housing where this would ensure the delivery of affordable housing to support rural exception schemes.

2.7 Built and Natural Environment

The Built and Natural Environment section of the JCS contains a range of policies covering topics such as biodiversity, green infrastructure, landscape, heritage assets, water, pollution and ground instability.

There are some significant Proposed Changes to policies within this section including changes to the Upper Nene Valley Gravel Pits Special Protection Area where further assessment has resulted in the definition of a defined protection zone shown on a new Figure 7 included within the JCS.

The Proposed Changes divide policy BN7 titled Flood Risk into two policies covering Flood Risk and a new policy BN7A titled Water Supply, Quality and Wastewater Infrastructure. The new policy seeks to ensure new developments take full account of the need for an adequate water supply and waste water infrastructure and to ensure that as far as practicable water quality is protected or improved.

2.8 Infrastructure

A major concern of local communities is to ensure that facilities and services are provided to meet future growth. A key requirement of the JCS is to secure appropriate levels of funding to ensure that supporting infrastructure (such as highway improvements, public transport provision, schools, healthcare facilities, local shops, leisure facilities and green spaces) is provided at an appropriate level and in a timescale where it is able to support development from the outset. The Proposed Changes to the Pre-Submission JCS update the information in relation to known infrastructure requirements and a new appendix 4 Infrastructure Requirements to the JCS is included. This updates detailed information in relation to the Key Primary Infrastructure Projects included at Table 7 of the JCS.

2.9 Sustainable Urban Extensions (SUEs)

The JCS approach to locating new development continues the concept of Sustainable Urban Extensions (SUEs). These are located around Northampton, Daventry, Towcester and Brackley and will accommodate the housing needs of each area. There are however some detailed Proposed Changes to the land use requirements for some of the SUEs as set out below.

The Technology Realm is relocated from Northampton North SUE to the Northampton SEMLEP Waterside Enterprise Zone (as described above).

Northampton Kings Heath SUE (known as Dallington Grange) is reduced from 3,500 dwellings to 3,000 dwellings in recognition of some site constraints including archaeology and ecology.

Daventry North East SUE (also known as Churchfields) will deliver around 2,000 dwellings to 2026 instead of 2,500 dwellings although the overall development remains at 4,000 dwellings. The slower delivery of houses in the period to 2026 is anticipated due to the

slowing of the economy and house building rates generally that are anticipated in the early part of the plan period.

Towcester South SUE will still deliver 1,500 dwellings in the period to 2026 but the overall size of the SUE will be reduced by 300 dwellings to 3,000 in recognition of prevailing market conditions.

Brackley East SUE is reduced by 30 dwellings to 350 dwellings to reflect the most up to date detailed information on the development of the site.

There are also some Proposed Changes that apply to all SUEs for example reference to Park and Ride provision is deleted from all SUEs. Northamptonshire County Council as highway authority considers that even on the busiest corridors delivering Park and Ride within the period to 2026 will be unlikely and a viable business case for establishing a Park and Ride bus service has not been established from any of the identified SUEs.

Proposed Changes also provide for a greater degree of flexibility in relation to the retail provision at new Local Centres within the SUEs. However, these will still be subject to impact assessment over 1,000 sqm.

2.10 The Rural Areas

Much of West Northamptonshire is rural in nature with a dispersed network of almost 190 villages and hamlets. The rural communities account for approximately one-third of West Northamptonshire's population. In Daventry and South Northamptonshire districts the percentage of people living in rural communities is as high as 75%.

Policy R1 of the Rural Areas section refers to the Spatial Strategy for the Rural Areas. Proposed Changes to this policy seek to clarify the scale of growth that is required in the rural areas and to provide greater flexibility for local decision making in recognition of the introduction of Neighbourhood Plans in the Localism Act.

The Proposed Changes specify that within the rural area of Daventry District an additional 1,355 dwellings will be built and that South Northamptonshire's rural area should deliver an additional 1,790 dwellings over the remaining years of the plan period. They also enable the local authorities, in consultation with their local communities, to determine a settlement hierarchy for the rural area and the scale of development that will be accommodated by individual settlements.

3 Sustainability Appraisal Methodology

The review of the Proposed Changes to the Pre-Submission WNJCS followed a transparent process, firstly determining whether the changes made were significant or not i.e. where they likely to have an effect on sustainability (e.g. housing number alteration) or were they simply presentational (e.g. paragraph number changes). Secondly we reviewed the altered policies against the January 2011 findings to determine whether any changes in the assessment was merited, based on the significance criteria and assessment methodology set out in the January 2010 SA Report. If so this was recorded in revised matrices and in the Schedule of Changes. The summary of the effects was then documented in this report.

Policy BN7a is the only new policy which was not included within the February 2011 Pre-Submission JCS which was subject to SA. PolicyBN7a has been subject to SA screening and the findings are presented in Annex A and within the revised Volume 2 Appendix D.

4 Sustainability Appraisal Findings

The Proposed Changes to the Pre-Submission policies have largely been in relation to clarifications and updates as a result of consultation and/or the publication of the National Planning Policy Framework (NPPF). The nature of these changes has for the most part been negligible. Where there have been changes to the assessment findings of the 2011 report, they have been in the main, positive. The details are set out below (note that we have only set out the sections where changes have been identified). The key to the symbols referred to is as follows (as set out in the SA Report for the February 2011 SA Report):

Score	Description	Symbol
Significant positive impact	The policies achieve all of the applicable SA objectives and have a positive effect with relation to characteristics of the effect and the sensitivity of the receptors	++
Minor positive impact	The policies contribute to the achievement of the SA objective (either will partly achieve some of the SA objectives / will have a minor positive impact) and have a positive effect with relation to characteristics of the effect and the sensitivity of the receptors	+
Neutral	The policies do not have an effect on the achievement of the SA objectives	0
Minor negative impact	The policies will partially conflict with some of the SA objectives and have a negative effect with relation to the characteristics of the effect and the sensitivity of the receptors	-
Significant negative impact	The policies will actively work against some of the SA questions and have a negative effect with relation to characteristics of the effect and the sensitivity of the receptors.	--
Uncertain	It is unclear whether there is the potential for a negative or positive effect on the SA objectives	?

4.1.1 Section 5: Spatial Strategy and key diagram

Policy S10 has been significantly reworded to create a stronger policy, specifically for:

- Air quality and noise through the addition of specific provisions within the policy. This changes the previous score for the Air quality topic to a ++ from a +.
- Archaeology and cultural heritage through the addition of specific provisions within the policy. This changes the previous score for this topic to a ++ from a +.
- Biodiversity flora and fauna through the addition of specific provisions within the policy including provision for green infrastructure and biodiversity. This changes the previous score for this topic to a ++ from a +.
- Water - through the addition of the promotion of sustainable drainage in Policy S10, the assessment against this objective is strengthened from + to ++.

Policy S11 has been strengthened through the addition of stating that “proposals should be sensitively located and designed to minimise potential adverse impacts on people, the

natural environment, biodiversity, historic assets”. The removal and reinstatement at the end of operations has also been provided for.

4.1.2 Section 6: Connections

Policy C1 has been strengthened through the prioritisation of sustainable methods of transport, the support of reductions in transport energy use and supporting economic growth. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.1.3 Section 8: Economic Advantage

Further Changes Policy E3 now does not relate to a Technology realm associated with Northampton north, but instead is concerned with a Technology Realm at the newly designated Northampton Riverside Enterprise Zone which promotes the redevelopment and re-use of previously developed land within an area containing several different employment sites in the centre of Northampton, close to the River Nene.

Policy E3 performs similarly to the previous Policy E3 in that it supports the economy and accessibility by public transport, however, there are a number of differences as identified below:

- Flora and fauna: ? due to potential for negative effects and potential for enhancements;
- Crime: ? uncertain as positive effects could occur but it will depend on the site;
- Material assets: 0 as the policy will not have an effect; and
- Water: ? because there is potential for both negative and positive effects on water quality.

No mitigation has been put forward to address the uncertain effects identified as any potential negative effects will be dealt with by other policies within the plan, such as the BN policies.

4.1.4 Section 9: Housing

Policy H2 has been strengthened through the inclusion of rural areas and the provision for rural housing need that has been identified. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.1.5 Section 10: Built and Natural Environment

Policy BN1 has been strengthened through the inclusion of the aim of *creating* green infrastructure. This has the effect of improving the scores against soil, geology and land use to ++ and water to ++.

Chapter 10: ‘Built Heritage’ also includes the addition of a sub-policy BN7a ‘Water Supply, Quality and Wastewater Infrastructure’. BN7a should have a positive effect (+) on biodiversity through ensuring that water quality is protected or improved where possible. The policy has the potential to have adverse effects (-) in terms of GHG emissions through the additional energy requirement for water treatment, if this is sourced from fossil fuels. Policy BN7a should have an indirect positive effect (+) on human health through the maintenance or improvement of water quality. It is acknowledged through the Water Cycle Strategy (WCS) that the issues on water quality would remain, regardless of development. Given this, Policy BN7a should prevent the situation from worsening, however, the “as far as practicable” caveat limits the effects this policy has.

Amendments to Policy BN4 have been made in line with the recommendations put forward in the Appropriate Assessment.

Policy BN9 has been strengthened in a number of areas - the policy now explicitly mentions noise and light pollution and included *maintaining* as well as improving deteriorating air quality. This changes the previous score for this topic to a ++ from a +. The policy also includes the requirement to protect and improve surface and groundwater quality.

Mitigation / Enhancement measures:

Include infrastructure in Policy S11 "*Major development (including infrastructure)...*"

Remove conditional caveats from BN7a

4.1.6 Section 12: Northampton

The main changes centre around the removal of the 3 ha Park and Ride site at Northampton North SUE and an emphasis on mitigating the impact of development of the highway network. Further changes have been made to allow for greater flexibility in housing, school and employment provision. There are also slight reductions in housing numbers based on new evidence. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.1.7 Section 13: Daventry

Policies D1 and D2 should result in positive effects (+ from 0) as the policy D2 now provides for the intent to provide development "*in a manner that is compatible with the appropriate conservation of its heritage assets*" *There would also be a positive effect given the provision of a green infrastructure network for Daventry (policy D1), resulting in a + score (from 0).*

The other changes are similar to those in the Northampton policies. Further changes have been made to allow for greater flexibility in housing, school and employment provision. There are also slight reductions in housing numbers based on new evidence. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.1.8 Section 14: Towcester

The changes are similar to those in the Northampton policies. Further changes have been made to allow for greater flexibility in housing, school and employment provision. There are also slight reductions in housing numbers based on new evidence. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.1.9 Section 15: Brackley

There should be an improvement for Policies B2 and B3 in that the policy states that archaeological and ecological assessment of the site and any mitigation now needs to be provided for. This should result in the scores against Archaeology and cultural heritage for both these policies from 0 to +.

The remaining changes are similar to those in the Northampton policies. Further changes have been made to allow for greater flexibility in housing, school and employment provision. There are also slight reductions in housing numbers based on new evidence. However, none of these alterations are significant enough to alter the findings of the 2001 Pre-Submission SA.

4.1.10 Section 16: Rural Areas

Policy R1 identifies that 1,355 dwellings within Daventry and 1,790 within South Northamptonshire should be provided between 2011 and 2026 based on residual identified need. However, none of these alterations are significant enough to alter the findings of the 2011 Pre-Submission SA.

4.2 The West Northamptonshire Water Cycle Study

The final version of the Water Cycle Study was published in September 2011. The SA has been updated with the final version of the Water Cycle Study for the plan area and this has resulted in some changes to the assessment findings and mitigation put forward. These changes are listed below:

- Policy N4 Northampton West: The assessment against the SA water objectives has changed from ? to 0 and the mitigation measure put forward has been removed. The uncertainty previously recorded was due to a draft version of Water Cycle Strategy had stated that it was unclear what sewage infrastructure would be required to service the proposed development and further work was being undertaken by Anglian Water. The final version of the Water Cycle Study contains information about infrastructure capacity and what developers will need to do in order to ensure the short and long term provision of services. There is sewage infrastructure capacity for the 5 year housing land supply within the Wootton Branch or the Bedford PS catchments to serve Northampton West. In the long term there is capacity within the Bedford Rd and Wootton Branch trunk networks to serve this development without causing an increase in the incidence of foul flooding. However, there will be an associated minor increase in spills from combined sewer overflows. Any wastewater strategy will need to ensure any increase in spill from overflows does not pose a downstream water quality or flood risk.
- Policy T3 Towcester South Sustainable Urban Extension: The assessment against the SA water objectives has changed from neutral to - - .The Water Cycle Study (2011) indicates that any housing development in Towcester is likely to lead to deterioration in downstream water quality. The assessment for Policy T2 The Town Centre And Moat Lane Regeneration Area in Towcester is the same as this policy promotes new residential and employment development in Towcester. The mitigation measure put forward for policy T2 has therefore also been put forward for policy T3 and is as follows:

“Mitigation measure: Further investigation is needed regarding the ability of the waste water treatment works in Towcester to deal with the level of growth in Towcester without deteriorating the quality of water downstream.”

- Policies D3 Daventry North East Sustainable Urban Extension and D4 Supporting Areas Of Community Regeneration: Southbrook: The assessment against the SA water objectives has remained the same although the mitigation measure put forward has been amended in line with the recommendations of the final Water Cycle Study and the following sentence has been added:

“A joint strategy by all developers connecting to a dedicated new trunk sewer is required.”

- Policies B2 and B3 Brackley: the assessment against the SA water objectives has changed from – to 0 and the mitigation measure has been removed, as policy BN7 addresses flood risk and conforms with the final version of the Water Cycle Study.

5 Summary and conclusions

The review of the Proposed Changes to the Pre-Submission WNJCS has followed a transparent process, firstly determining whether the changes made were significant i.e. where they likely to have an effect on sustainability (e.g. housing number alteration) or were they simply presentational (e.g. paragraph number changes). Secondly the altered policies were reviewed against the January 2011 findings to determine whether any changes to the assessment was necessary. If so this was recorded in revised matrices and in the Schedule of Proposed Changes. The summary of the effects was then documented in this report.

With regard to sustainability effects, the majority of changes have resulted in positive effects or enhancements/improvements to effects which had already been identified as positive. In some cases, policies were strengthened but were already achieving the maximum positive score. There was one negative score identified, that is the potential GHG impacts of increased energy demand for water treatment, however with mitigation this effect should be negligible.

Annex A: Screening Table

Assessment of the significant Proposed Changes in the context of the Sustainability
Appraisal

Table A1: Schedule of Changes – Spatial Portrait					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC001/S	4.0 Spatial Portrait	Para. 4.13	After the first sentence add: " <u>In August 2011 Northampton Waterside was awarded Enterprise Zone status following a bid submitted by the South East Midlands Enterprise Partnership (SEMLEP).</u> "	Factual update.	No effect on the 2011 SA findings.
PC006/S	4.0 Spatial Portrait	Objective 16	Add a new objective to read: "Objective 16 - Heritage To conserve and where possible enhance, through carefully managed change, the important heritage assets and their settings of Northampton, Daventry, Towcester and Brackley, and to recognise the role of rural heritage assets and their settings, to support a sense of place and local distinctiveness."	In response to comments from English Heritage and National Trust and in recognition of the need to more explicitly recognise the heritage assets of West Northamptonshire.	++ The addition of Objective 16 – Heritage, strengthens the positive effects for this topic.

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC004/S S	Spatial Strategy	Policy S1	Add " ENHANCING AND " to the first bullet point under "D)" in Policy S1.	Recognition that development can enhance as well as maintain the distinctive character and vitality of rural communities. Consistency with Policy R1.	No change to assessment findings
PC010/S S	Spatial Strategy	Policy S2	Reword the last two paragraphs of Policy S2 as follows: "THE VITALITY AND VIABILITY OF THESE CENTRES SHOULD <u>MUST</u> BE MAINTAINED AND ENHANCED COMMENSURATE WITH THEIR ROLE AND FUNCTION. THE SCALE OF NEW DEVELOPMENT AT CENTRES BELOW NORTHAMPTON TOWN CENTRE IN THE HIERARCHY MUST NOT <u>HAVE AN ADVERSE IMPACT ON THE FUTURE VITALITY AND VIABILITY OF THE CENTRE OR PUT AT RISK FUTURE INVESTMENT IN NORTHAMPTON TOWN CENTRE.</u> "	To strengthen policy.	A minor strengthening against 'Labour market and economy' but not significant enough to alter assessment findings.
PC020/S S	Spatial Strategy	Policy S5	Amend the following bullets points in Policy S5 as follows:	To reflect the proposed	There is a reduction of c

PC028/S	Spatial Strategy	Existing Para 5.35 (New	Add a new sentence at the end of the paragraph as	Commitment	This is an

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
S		Para.5.41)	follows: "The JCS is committed to make good any such losses, with a corresponding increase to the 19,000 jobs reference value."	required by the National Planning Policy Framework to provide contingency for job losses through corresponding increase in jobs provision.	improvement on the exiting policy through commitment for making up job losses. However, this is already a '++' against Labour market and economy' so no change.
PC031/S S	Spatial Strategy	Policy S7	Amend Policy S7 as follows: "PROVISION WILL BE MADE FOR A MINIMUM NET INCREASE OF 19,000 16000 JOBS IN THE PERIOD 2010 2008- 2026 IN ORDER TO MAINTAIN A BROAD BALANCE OVER TIME BETWEEN HOMES AND JOBS AND TO MAINTAIN A DIVERSE ECONOMIC BASE."	To take account of latest demographic and jobs data and clarify time-period for delivery of those jobs.	This is an improvement on the exiting policy through commitment for making up job losses. However, this is already a '++' against Labour market and economy' so no change.

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC032/S	Spatial Strategy	Existing Para 5.39 (New Para 5.45)	Add new sentences to the end of the paragraph as follows: <u>"The SEMLEP Northampton Waterside Enterprise Zone commenced in April 2012 bringing financial incentives and a simplified planning system to business within it. The SEMLEP Northampton Waterside Enterprise Zone will drive the delivery of 120 hectares of employment land in town-centre, edge of centre, and urban locations providing skilled jobs in manufacturing, research and development, and office sectors of the West Northamptonshire economy including High Performance Technology. Jobs created in the SEMLEP Northampton Waterside Enterprise Zone are incorporated within the minimum jobs requirement for West Northamptonshire."</u>	Factual update to reflect the designation of the SEMLEP Northampton Waterside Enterprise Zone since the Pre-Submission JCS.	This strengthens the policy, but the previous SA identified '++' effect against 'Labour market and economy'. Therefore no change.
PC037/S	Spatial Strategy	Existing Para. 5.43 (New Para 5.49)	In the second sentence replace "2,500" with "2,000".	To reflect changes to the Daventry North East SUE.	This strengthens the policy, but the previous SA identified '++' effect against 'Labour market and economy'. Therefore no change.

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC039/S S	Spatial Strategy	Policy S8	<p>Add a new second bullet point in the first section of Policy S8 as follows:</p> <p>"INDUSTRIAL/ MIXED/ OFFICE LAND (102HA) WITHIN THE SEMLEP NOPRTHAMPTON WATERSIDE ENTERPRISE ZONE INCLUDING ..."</p> <p>Add a new sub second bullet point:</p> <p>"INDUSTRIAL LAND (INCLUDING RESEARCH/ LIGHT INDUSTRY/ GENERAL INDUSTRY) IN THE SEMLEP NORTHAMPTON WATERSIDE ENTERPRISE ZONE".</p> <p>Delete the third bullet point as follows:</p> <p>"PROVISION OF A TECHNOLOGY REAM AS SET OUT IN POLICY E3".</p> <p>Add a new fifth bullet point as follows:</p> <p>"EXISTING BUSINESS AREAS INCLUDING SWAN VALLEY, LODGE FARM, MOULTON PARK AND BRACKMILLS".</p> <p>Add "PERFORMANCE" to the second bullet of third paragraph in relation to South Northamptonshire as follows:</p> <p>"HIGH PERFORMANCE TECHNOLOGY MOTORSPORT CLUSTER AT SILVERSTONE CIRCUIT AS SET OUT IN POLICY E5;"</p>	<p>To take account of the SEMLEP Northampton Waterside Enterprise Zone, the revised approach to the Northampton Technology Realm, the employment land supply pipeline and to clarify the nature of the cluster at Silverstone Circuit.</p> <p>Moving the Technology Realm framework from Northampton North SUE to the SEMLEP Northampton Waterside Enterprise Zone provides a more sustainable and viable location for the Technology</p>	<p>This strengthens the policy, but the previous SA identified '++' effect against 'Labour market and economy'. Therefore no change.</p>

Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
				<p>Realm framework. The transfer of the Technology Realm to the Northampton Waterside Enterprise Zone therefore:</p> <ul style="list-style-type: none"> - Is more sustainable helping regenerate derelict land in town centre and edge of centre locations - Provides a better economic offer by complementing the role of the Enterprise Zone instead of competing with it; and - Retains approach of delivering quality jobs through enabling a range of business 	

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
				spaces.	
PC041/S S	Spatial Strategy	Existing Para. 5.45 (New Para 5.51)	Update the second and third sentences as follows: "For the later stages of the JCS the impact of the <u>SEMLEP Northampton Waterside Enterprise Zone</u> and the town centre regeneration proposals will begin <u>begin</u> to impact significantly on jobs growth. <u>The SEMLEP Northampton Waterside Enterprise Zone aims to be a centre of excellence for advanced technologies, precision/high performance engineering, low carbon technology, and sustainable construction. The Northamptonshire Technology Realm will assist in this process.</u> "	To take account of the SEMLEP Northampton Waterside Enterprise Zone's impact on economic sectors.	No change. Recommend that the sentence is rephrased to "will have a significant positive impact on jobs growth."
PC046/S S	Spatial Strategy	Existing Para. 5.51 (New Para. 5.57)	Amend the paragraph as follows: "The <u>SEMLEP Northampton Waterside Enterprise Zone will open up land for research and development and associated industry in Northampton Central Area. The Technology Realm can assist this process.</u> The Northamptonshire Technology Realm Strategy[Northamptonshire Technology Realm: Forward Strategy 2007] seeks to focus high growth business innovation and development withinNorthamptonshire with Northampton at the hub and at "spokes" within the three growth towns of Corby, Kettering and Wellingborough in North Northamptonshire <u>and high performance technology clusters in South Northamptonshire, Daventry and Northampton.</u> Its ethos is to provide a ladder of high quality connected and flexible work places founded	To clarify the role of the SEMLEP Northampton Waterside Enterprise Zone To clarify the role of the revised Technology Realm.	No change.

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			on collaboration with learning and skills partners to create a highly skilled and knowledge based workforce."		
PC047/S S	Spatial Strategy	Existing Para. 5.53 (New Para. 5.59)	Amend the sentence as follows: " A new strategic land allocation at policy to nurture a range of starter and grow-on business units is proposed in the SEMLEP Northampton Waterside Enterprise Zone is proposed (Policy E3 refers) for a Technology Realm framework will to provide a the hub for business development and flexible workplaces to foster innovation and entrepreneurship."	To focus the role of the Technology Realm ensuring it is sustainable and complements the SEMLEP Northampton Waterside Enterprise Zone.	No change
PC060/ SS	Spatial Strategy	Existing Para. 5.72 (New Para. 5.76)	Amend the paragraph as follows: "Climate change adaptation and mitigation, are integrated across all Joint Core Strategy policy and proposals. They inform: <ul style="list-style-type: none"> • locations for new development; • the way we will travel in the future; • new employment opportunities; and • strategies for the adaptation and enhancement of our built , <u>historic</u> and natural environment; and • <u>provision of low carbon and renewable energy.</u>" 	To strengthen the link between Policy S10 and Policy S11 and integration of Policy S10 across all JCS policy	The provision of low carbon and renewable energy in this list, strengthens the policy, however it is not sufficient to alter the SA findings – no change.
PC061/	Spatial Strategy	Existing Para. 5.73 (New Para.	Amend the paragraph as follows:	To revise text to	No change

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
SS		5.77)	“It is recognised that a response to climate change, is something that runs across all areas of policy. It is therefore important to reiterate that all new development will need to take account of all the relevant policies within the JCS, for example: Connections Policies to help reduce carbon emissions from travel; Flood Risk, Water Quality in the Built and Natural Environment section in terms of adaptation and mitigation; Biodiversity policies to protect flora and fauna <u>and reduce fragmentation</u> ; policies to enhance the opportunities from the historic environment in terms of the re-use of existing buildings, in addition to the overall strategy that seeks to direct new development to the most sustainable locations.”	reflect how the response to sustainable development and climate change runs across all policy areas in relation to a revised approach to Policies S10 and S11.	
PC063/ SS	Spatial Strategy	Existing Para. 5.75 (New Para. 5.79)	Amend the paragraph as follows: “The scale of development planned across the area will place pressure on the environment. It is therefore important to <u>ensure prudent protect, conserve and enhance the natural and local environment, protecting valued landscapes, minimising impacts on biodiversity, and enhancing green networks. This will include the efficient use of natural resources and ensuring that buildings are constructed to the highest standards possible, both in terms of the materials used in their construction and their overall performance during their lifetime leading to zero carbon housing from 2016 and zero carbon non-domestic buildings from</u>	To reflect revised approach to achieving Code for Sustainable Homes compliance and approach to Zero Carbon Homes and for non-domestic buildings standards and reflect revised approach to	See S10 and S11

Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p><u>2019</u>. This includes the re-use of materials during construction as part of the maximisation of recycling, as well as minimising any waste either during the construction or the lifetime of the building, as set out within the Development and Implementation Principles SPD^[12], prepared by Northamptonshire County Council. Development viability testing for the area^[13] has demonstrated that sites can deliver the standards set out in Code for Sustainable Homes Level 4 (or equivalent) at present with some areas, particularly within South Northamptonshire, able to exceed this target. Code Level 4 is therefore a minimum policy standard for residential developments until 2016, with the requirements increasing throughout the plan period in line with national policy. Non-residential developments, over 500m² gross internal floorspace, will achieve a rating of at least BREEAM (BRE Environmental Assessment Method Very Good (or equivalent)).”</p>	Policies S10 and S11.	
PC065/SS	Spatial Strategy	Existing Para. 5.77 (New Para. 5.81)	<p>Amend the paragraph as follows:</p> <p>"Other factors that will need to be considered in ensuring developments are sustainable <u>design of new development</u> include:</p> <ul style="list-style-type: none"> ensuring the <u>layout and</u> orientation of dwellings to maximise solar gain; ensuring development densities that are high enough to support local services, facilities and sustainable transport; 	To reflect the revised approach to Policy S10 and a strengthened approach to sustainable design.	See S10 and S11

Table A2: Schedule of Changes – Spatial Strategy					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<ul style="list-style-type: none"> • creating layouts <u>designing neighbourhoods that reduce the need to travel and</u> maximise opportunities for walking and cycling and reduce the need to travel; • locating new development close to services, such as education and retail; and • the creation of <u>attractive, usable and durable places, and improvement of the historic environment, including high quality and inclusive design of development</u>, open spaces and green infrastructure that support community <u>health and well being.</u>" 		
PC067/ SS	Spatial Strategy	Policy S10	<p>Amend Policy S10 as follows:</p> <p>"POLICY S10 - SUSTAINABLE DEVELOPMENT PRINCIPLES</p> <p>IN ORDER TO ACHIEVE THE OVERARCHING GOALS OF SUSTAINABILITY DEVELOPMENT WILL:</p> <ul style="list-style-type: none"> • <u>ACHIEVE THE HIGHEST STANDARDS OF SUSTAINABLE DESIGN INCLUDING IN RELATION TO INCORPORATING SAFETY AND SECURITY CONSIDERATIONS AND A STRONG SENSE OF PLACE;</u> • <u>BE DESIGNED TO IMPROVE ENVIRONMENTAL PERFORMANCE,</u> 	<p>To strengthen policy S10 in terms of sustainable design, adaptation, resources and recycling, energy, water resources, environmental assets and pollution.</p> <p>The changes reflect evidence from the Water Cycle Study, the</p>	<p>S10 has been significantly reworded to create a stronger policy. Table A3: Schedule of Changes – Connections					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC003/C	Connections	New Para. 6.15	<p>Add a new paragraph before existing Paragraph 6.15 as follows:</p> <p>"The Northamptonshire vision is for Northamptonshire to be at the leading edge of the digital economy. This requires new development, both housing and commercial, to be directly served by high quality fibre networks. Access to these networks will make working from home, and operating businesses, easier and therefore reduce the need to travel. Such access will enable e-learning and access to an increasing number of on-line applications and services provided by the public and private sector, including tele-health, and can help to reduce the challenge of social exclusion."</p>	To provide more detail about support for broadband infrastructure as supported by the Northamptonshire Transport Plan	
PC004/C	Connections	Policy C1	<p>Amend the first sentence of Policy C1 as follows::</p> <p><u>"PRIORITY WILL BE GIVEN TO PROPOSED TRANSPORT SCHEMES THAT WILL BE REQUIRED TO DEMONSTRATE HOW THEY WILL CONTRIBUTE TO BEHAVIOURAL CHANGE BY...."</u></p>	To clarify the approach to further capacity ensuring that sustainable approaches are prioritised.	The prioritisation of these sustainable methods should strengthen the effects on air quality and noise, although the outcome of the

Table A3: Schedule of Changes – Connections					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
					assessment remains the same – no change.
PC005/C	Connections	Policy C1	Add a new paragraph to Policy C1 after the fourth bullet point as follows: <u>"ANY CAPACITY IMPROVEMENTS SHOULD SUPPORT ECONOMIC GROWTH AND/ OR SAFEGUARD STRATEGIC ROUTES AND/ OR REDUCE TRANSPORT ENERGY USE"</u>	To clarify the approach to further capacity increases on the transport network.	This provision strengthens the effects for Labour market and the economy and energy and climatic factors, however there is no change in the predicted effects.
PC006/C	Connections	Policy C1	In the second part of Policy C1 add a fourth bullet point: <u>"NEW DEVELOPMENT SHOULD BE ACCESSED BY FIBRE TO THE PREMISES (FTTP) TECHNOLOGY ENABLING ACCESS TO SUPERFAST BROADBAND AND SPEEDS OF AT LEAST 30 MEGABITS PER SECOND"</u>	To clarify the requirements to enable superfast broadband.	No change to the assessment.
PC010/C	Connections	Policy C2	Add <u>"MITIGATE ITS EFFECTS ON THE HIGHWAY NETWORK AND"</u> to the second paragraph Policy C2	To make it clear that development	No change to

Table A3: Schedule of Changes – Connections					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p>as follows:</p> <ul style="list-style-type: none"> • "DEVELOPMENT WILL BE REQUIRED TO <u>MITIGATE ITS EFFECTS ON THE HIGHWAY NETWORK AND BE SUPPORTED BY A TRANSPORT ASSESSMENT ...</u>" 	<p>must mitigate its effects on the highway and to clarify the requirements for enhanced public transport services.</p>	<p>the assessment.</p>

Table A4: Schedule of Changes – Economic					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC002/E	Economic Advantage	Para. 8.5	<p>Add to the end of the paragraph as follows:</p> <p>"Much of West Northamptonshire's employment is provided on large purpose built estates with corresponding infrastructure, often badly suited to non-employment uses. Losses of employment land in West Northamptonshire for the last five years have been low. Where it can be shown that vacant employment land is no longer viable, a mix of employment uses including, exceptionally, Non-B class employment uses (as mentioned in WNELS) may be considered where shown to be essential to viability and compliant with the sequential test in Policy E2. While employment land will be protected WNELS does not require B class employment land to be protected for Strategic B8 use given the amount available over the plan period, comparatively low jobs densities, sustainability impacts, and the need for a balanced economy. WNELS does require the protection of small B8 uses in order to provide necessary support for other employment uses. Non-Strategic B8 use typically has higher job densities of 1 worker per 50 sqm or better and will be protected.</p>	<p>To clarify the need to retain existing employment land and include flexibility as required by the National Planning Policy Framework.</p> <p>To clarify the need to retain existing non-strategic B8 employment land.</p>	
PC009/E	Economic Advantage	Policy E3	<p>Amend heading and text of policy as follows:</p> <p>POLICY E3 - TECHNOLOGY REALM, <u>SEMLEP NORTHAMPTON NORTH WATERSIDE</u></p>	Revise policy to reflect the priorities of learning & skills partners such as	No change (assuming the SEMLEP was the Technology

			<p><u>ENTERPRISE ZONE</u></p> <p>A 7 HECTARE SITE FOR A TECHNOLOGY REALM IS ALLOCATED AS PART OF THE NORTH NORTHAMPTON SUSTAINABLE URBAN EXTENSION. THE SITE WILL MAKE PROVISION FOR:</p> <ul style="list-style-type: none"> • START UP UNITS WILL BE NEEDED WITHIN THE RANGE OF 125-500 SQM B1 (OFFICE, RESEARCH AND DEVELOPMENT, LIGHT INDUSTRY) AND 200-1,000 SQM B2 (INDUSTRIAL) • HIGH QUALITY AND INNOVATIVE DESIGN AND LANDSCAPING INCLUDING A GATEWAY FEATURE ON THE A43 FRONTAGE <p>DEVELOPMENT PROPOSALS MUST BE ACCOMPANIED BY A MASTERPLAN.</p> <p><u>THE LOCAL PLANNING AUTHORITY WILL SEEK TO NEGOTIATE A RANGE OF BUSINESS UNIT SIZES WITHIN THE SEMLEP NORTHAMPTON WATERSIDE ENTERPRISE ZONE TO ENABLE THE START-UP AND ENCOURAGE THE GROW-ON OF BUSINESSES.</u></p>	<p>Northampton Economic Partnership/South East Midlands Local Economic Partnership, take account of the NPPF, and the designation of the SEMLEP Northampton Waterside Enterprise Zone including the need for synergy with the Technology Realm.</p>	<p>Realm in North Northampton)</p>
PC013/E	Economic Advantage	Para. 8.20	<p>Amend and add to second sentence as follows: "It has become a popular and important motorsport venue and its reputation has become synonymous with excellence not only in motorsport, but also education, employment, and high performance technology, and engineering skills."</p>	<p>To include the role of high performance technology</p>	<p>No change to assessment</p>
PC016/E	Economic Advantage	Policy E5	<p>Delete from first bullet: "(APPROXIMATELY 50% IN AYLESBURY VALE DISTRICT)"</p>	<p>Factual correction.</p>	<p>No change to assessment</p>

Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment																								
PC011/H	9.0 Housing	Policy H2	<p>Amend Policy H2 as follows:</p> <p>1. Delete the first three bullet points and insert the following table:</p> <table border="1"> <thead> <tr> <th>LOCATION</th> <th>PROPORTION OF AFFORDABLE HOUSING</th> <th>SITE SIZE THRESHOLD</th> </tr> </thead> <tbody> <tr> <td><u>DAVENTRY DISTRICT</u>^[3]</td> <td></td> <td>5 OR MORE DWELLINGS</td> </tr> <tr> <td>DAVENTRY TOWN</td> <td>25%</td> <td></td> </tr> <tr> <td>RURAL AREAS</td> <td>40%</td> <td></td> </tr> <tr> <td>NORTHAMPTON RELATED DEVELOPMENT AREA</td> <td>35%</td> <td>15 OR MORE DWELLINGS</td> </tr> <tr> <td><u>SOUTH NORTHAMPTONSHIRE</u>^[4]</td> <td></td> <td>5 OR MORE DWELLINGS</td> </tr> <tr> <td>BRACKLEY AND TOWCESTER</td> <td>40%</td> <td></td> </tr> <tr> <td></td> <td>50%</td> <td></td> </tr> </tbody> </table>	LOCATION	PROPORTION OF AFFORDABLE HOUSING	SITE SIZE THRESHOLD	<u>DAVENTRY DISTRICT</u> ^[3]		5 OR MORE DWELLINGS	DAVENTRY TOWN	25%		RURAL AREAS	40%		NORTHAMPTON RELATED DEVELOPMENT AREA	35%	15 OR MORE DWELLINGS	<u>SOUTH NORTHAMPTONSHIRE</u> ^[4]		5 OR MORE DWELLINGS	BRACKLEY AND TOWCESTER	40%			50%		<p>1. 			<p>2. Delete the penultimate paragraph of Policy H2.</p>							
PC012/H	9.0 Housing	Para. 9.14 and Policy H3	<p>Delete the existing Paragraph 9.14 and Policy H3 and replace with the following text and Policy H3:</p> <p>"Local Housing Needs in Rural Areas</p> <p>9.18 Affordability is a key issue in the rural areas of West Northamptonshire where average house prices are significantly higher than the urban areas. For this reason Policy H3 below seeks to support the provision of affordable housing through rural exception sites and also through mixed tenure schemes where an element of market housing is necessary to deliver the identified need for affordable housing. It is expected that rural exception sites will be small in scale and normally be developed solely for affordable housing. In those cases where an element of market housing is required the scale should be the minimum required to secure the delivery of the affordable housing. The market housing itself may also meet local needs such as accommodation for older people who wish to remain within their local community, or live/ work units for activities which are particularly suited to a rural area. Where affordable housing is provided under the provisions of Policy H3 this must remain affordable in perpetuity."</p> <p>"9.19 The SHLAA has identified a number of potential sites that could be suitable to meet the needs for affordable housing in rural areas. However the suitability of these sites can only</p>			To reflect the provisions of the National Planning Policy Framework which encourages Local Planning Authorities to consider the provision of market housing where this would ensure the delivery of affordable housing.	Change in nature from permission being granted to 'supported' should strengthen this policy with regard to delivery of affordable housing in rural areas. There is no change to the previous SA findings.			

Table A5: Schedule of Changes – Housing					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p>be confirmed as specific needs are identified and confirmed through local housing needs surveys. The effective involvement of local communities is an essential prerequisite for the consideration of schemes to meet local housing needs, especially where the provision of market housing is proposed. Local communities may themselves take the opportunity to identify and plan for local housing needs through Neighbourhood planning or other community planning documents."</p> <p>"POLICY H3 - RURAL EXCEPTION SITES</p> <p>THE PROVISION OF AFFORDABLE HOUSING TO MEET IDENTIFIED LOCAL NEEDS IN RURAL AREAS ON 'EXCEPTION SITES' WILL BE SUPPORTED.</p> <p>SCHEMES MUST EITHER BE PURELY AFFORDABLE HOUSING OR MIXED TENURE SCHEMES INCLUDING AN ELEMENT OF MARKET HOUSING WHERE THIS IS ESSENTIAL TO THE DELIVERY OF THE AFFORDABLE HOUSING. IT WILL BE A REQUIREMENT THAT THE MARKET HOUSING:</p> <ul style="list-style-type: none"> • IS THE MINIMUM NECESSARY TO MAKE THE SCHEME VIABLE, AND • MEETS SPECIFIC LOCALLY IDENTIFIED HOUSING NEEDS. <p>IN ALL CASES THE FOLLOWING CRITERIA MUST BE MET:</p>		

Table A5: Schedule of Changes – Housing					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<ul style="list-style-type: none"> • THE SITE IS WITHIN OR IMMEDIATELY ADJOINS THE MAIN BUILT-UP AREA OF A RURAL SETTLEMENT; • THE FORM AND SCALE OF DEVELOPMENT SHOULD BE CLEARLY JUSTIFIED BY EVIDENCE OF NEED THROUGH A LOCAL HOUSING NEEDS SURVEY; AND • ARRANGEMENTS FOR THE MANAGEMENT AND OCCUPATION OF AFFORDABLE HOUSING MUST ENSURE THAT IT WILL BE AVAILABLE AND AFFORDABLE IN PERPETUITY FOR PEOPLE IN LOCAL HOUSING NEED." 		

Table A6: Schedule of Changes - Natural and Built Environment					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC002/BN	10.0 Built and Natural Environment	10.2	Add "biodiversity" at the beginning of the list of features and replace "buildings of interest" with "heritage assets".	To reflect the wording of the NPPF and national Biodiversity Strategy.	No change
PC003/BN	10.0 Built and Natural Environment	10.5	Amend the list of built and natural assets as follows: In the third bullet; delete "remains" and replace with "sites of national, regional and local significance;" Add a new fifth bullet: "Scheduled ancient monuments and registered battlefields;" Add a new sixth bullet: "Significant historic designated landscapes such as parks and gardens;"	To add clarity to list of significant nationally protected built and natural assets.	This amendment strengthens the policy with regard to heritage assets though the provision of two specific bullets.
PC006/BN	10.0 Built and Natural Environment	Existing Para 10.8 (New Para 10.9)	Amend the first sentence as follows: "Green Infrastructure (GI) is a network <u>comprising the broadest range of multi-functional green spaces and their connections and other environmental features including but not limited to parks, private green spaces, woodlands, wetlands, open and running water, wastelands and disturbed grounds, rivers and canals and their banks, road and rail corridors, public rights of way allotments, cemeteries and churchyards².</u> "	To provide a more thorough definition of Green Infrastructure.	No change.
PC009/BN	10.0 Built and Natural	BN1 Green Infrastructure.	1. Amend second bullet point as follows: " SECURING CONTRIBUTIONS FROM DEVELOPMENT OR OTHER SOURCES FOR THE CREATION OF AND FUTURE	1. To include creation in relation	The addition of creation is a

	Environment		<p>MANAGEMENT OF THE GREEN INFRASTRUCTURE NETWORKS"</p> <p>2. Amend the second paragraph as follows:</p> <p><u>"MEASURES TO ENHANCE EXISTING AND PROVIDE NEW GREEN INFRASTRUCTURE PROVISION WILL:"</u></p> <p>3. Amend numbering of bullets 1 to 5 to bullet points.</p> <p>4. Amend the third bullet in the second part of the policy as follows:</p> <p><u>"BE DESIGNED TO THE HIGHEST QUALITY IN TERMS OF APPEARANCE, ACCESS PROVISION AND BIODIVERSITY ENHANCEMENT AND PROTECTION WILDLIFE PROVISION;"</u></p> <p>5. Amend the fourth bullet in the second part of the policy as follows:</p> <p><u>"REFLECT LOCAL CHARACTER THROUGH THE PLANTING OF NATIVE AND OTHER CLIMATE APPROPRIATE SPECIES AND CONSIDERATION OF NATURAL AND CULTURAL HERITAGE FEATURES;"</u></p>	<p>to funding measures.</p> <p>2. To include the improvement of existing Green Infrastructure.</p> <p>3. For consistent approach to listing throughout document.</p> <p>4. To aid clarity and reflect national Biodiversity Strategy wording.</p> <p>5. To respond to adaptation to a changing climate.</p>	<p>strong addition to this policy as it should result in greener infrastructure funding for the creation of schemes. This policy performs strongly already, however, with regard to water, the effect could be increased to ++ given the potential for increased green infrastructure.</p>
PC014/BN	10.0 Built and Natural	Existing Para10.18	Delete the words "should be taken into consideration" and replace with "must be fully considered."	To clarify the operation of the	No change

Table A6: Schedule of Changes - Natural and Built Environment					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
	Environment	(New Para 10.19)		Wildlife and Countryside Act 1981 (as amended)	
PC017/BN	10.0 Built and Natural Environment	Policy BN3	<p>Amend the policy as follows:</p> <p><u>"MEASURES TO ENHANCE AND MANAGE EXISTING WOODLANDS AND CREATE NEW WOODLANDS IN WEST NORTHAMPTONSHIRE WILL BE SUPPORTED. OPPORTUNITIES WILL BE SOUGHT TO CREATE NEW WOODLAND TO BUFFER, EXTEND AND RELINK AREAS OF ANCIENT WOODLAND WHICH HAVE BECOME FRAGMENTED. THE PROTECTION OF AGED OR VETERAN TREES OUTSIDE ANCIENT WOODLANDS WILL ALSO BE SUPPORTED. DEVELOPMENT THAT WOULD LEAD TO FURTHER FRAGMENTATION OR RESULT IN A LOSS OF ANCIENT WOODLAND WILL NOT BE PERMITTED.</u></p> <p>WOODLAND ENHANCEMENT AND CREATION ALONG THE YARDLEY WHITTLEWOOD RIDGE FROM THE VILLAGE OF YARDLEY HASTINGS TOWARDS TOWCESTER AND BRACKLEY WILL BE PRIORITISED IN RECOGNITION OF ITS IMPORTANCE TO THE CHARACTER AND BIODIVERSITY OF WEST NORTHAMPTONSHIRE. DEVELOPMENT THAT WOULD LEAD TO FURTHER FRAGMENTATION OR RESULT IN A LOSS OF ANCIENT WOODLAND WILL NOT BE PERMITTED."</p>	To strengthen policy on the management of woodland and provide greater protection in policy for ancient woodland and veteran trees outside ancient woodland.	Strengthens policy; however it is already performing well with regard to the relevant topics. No change.

Table A6: Schedule of Changes - Natural and Built Environment					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC022/BN	10.0 Built and Natural Environment	New paragraph	Add a new paragraph as follows: "10.27 These species, along with other waterbirds are susceptible to recreational disturbance. Assessments have identified that birds using the Northamptonshire Washlands are already suffering from significant levels of disturbance which will increase with future development and recreational usage."	To clarify the nature of the impacts on the SPA	No change.
PC023/BN	10.0 Built and Natural Environment	New paragraph	Add a new paragraph as follows: "10.28 In order to minimise disturbance to protected species when planning new development, dialogue will be encouraged between Northampton Borough Council, Natural England, developers, the SPA owners, Wildlife Trust and Environment Agency in order to utilise developer contributions to establish suitable site and access management plans."	To reflect advice contained in the Sustainability Appraisal.	Clarify what advice.
PC024/BN	10.0 Built and Natural Environment	New paragraph	Add a new paragraph as follows: "10.29 The Northamptonshire Washlands continue to support waterbirds due to its open nature and good sightlines. It is important to maintain an unobstructed line of sight for Golden Plover and Lapwing in particular, to enable predator detection which is important while feeding, resting and roosting. Development close to habitat used by these species can reduce sight-lines and therefore the habitats suitability for feeding and roosting."	To clarify the nature of the impacts on the SPA	No change
PC025/BN	10.0 Built and Natural Environment	New paragraph	Add a new paragraph as follows: "10.30 During the winter period Golden Plover and Lapwing use the Northamptonshire Washlands for resting and roosting;	To clarify the nature of impacts on the SPA.	No change

				as well as "sustain" the rural economy.	SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC001/ A4	Appendix 4	Introductory (Page 201)	<p>Replace the existing introductory text with the following:</p> <p>Appendix 4 - West Northamptonshire Infrastructure Delivery Plan - schedule extract</p> <p>The purpose of the West Northamptonshire Infrastructure Delivery Plan (IDP) is to identify the strategic priorities for the delivery of key infrastructure needed to support the scale of growth put forward in the West Northamptonshire Joint Core Strategy. This Appendix includes the infrastructure schedules taken from the IDP Update 2012 and is for reference purposes only as the IDP and its associated schedules will be updated annually as development occurs, identified infrastructure is delivered and further details on infrastructure requirements are presented. For full clarity the schedules should be read with the accompanying text in the IDP.</p> <p>The IDP 2012 covers the strategic provision of the following types of infrastructure:-</p> <ul style="list-style-type: none"> • Transport • Health • Education • Community and Leisure • Open space and Green Infrastructure • Utilities <p>The transport schedule comprises identified highway</p>	To improve clarity.	

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p>improvements, public transport improvement and walking and cycling facilities associated with strategic growth and for individual developments such as SUEs where known. Further detailed transport assessments will be required for development proposals which may highlight further transport improvements of a more local nature to mitigate the impact of development. These will only become clear through detailed assessment once the form of the development is known. There are a number of Primary Key Infrastructure Projects identified for transport infrastructure within the schedules which are also identified in the JCS at Table 7.</p> <p>Health provision is identified as primary health care requirements. Acute healthcare provision is revenue funded by the Department of Health and delivered by NHS Trusts and the Clinical Commissioning Groups within the County. Providing acute healthcare infrastructure is beyond the control of the partner authorities and developers within West Northamptonshire.</p> <p>Information on education provision is provided by Northamptonshire County Council as education provider. The schedule includes requirement for both primary and secondary education and their anticipated timing set against housing growth. Education provision will be funded jointly by the developer and provider.</p> <p>Community and leisure provision covers a number of different types of infrastructure including community halls/centres, emergency services, cultural development such as libraries,</p>		

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p>museums and galleries, indoor and outdoor sports provision, and public realm improvements.</p> <p>Community facilities in the form of halls or other meeting spaces are generally included in proposals for local centres. Typically, the expectation is that these facilities will be provided in shared buildings which also provide space for other uses, such as leisure, emergency services and libraries.</p> <p>Open space and green infrastructure are identified at a strategic level. Facilities such as play spaces and community open space will be required to be provided to serve specific developments such as SUEs. These will be determined in detail through masterplanning exercises and provided on site by the developer. As such they do not from itemised entries in the IDP schedules.</p> <p>Utilities infrastructure covers energy supply through electricity and gas, water infrastructure through water supply and waste water treatment and telecommunications infrastructure.</p> <p>The Water Cycle Study (September 2011) concludes that Anglia Water Services (AWS) through their strategic infrastructure and resource planning are currently undertaking and have planned for the future a number of capital schemes that will support the proposed growth within the study area until 2035. For planned growth (such as SUEs) local reinforcements will be required and are provided for through the normal requisition process whereby the developer pays AWS to provide the necessary pipes and connections. The requisition</p>		

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			<p>process is triggered by development, and is therefore entirely dependent on the timing of the individual developments. The cost of connections will be determined through the requisition process and is not therefore included within the schedule. Likewise for connection to waste water, electric and gas infrastructure network, these costs are borne by the developer and are also requisitioned from the provider. As normal development costs determined at the point of requisition these connections are not included in the schedule.</p> <p>There are a number of Primary Key Infrastructure Projects identified for waste water infrastructure which are also identified on the schedules and at Table 7 in the JCS.</p>		
PC002/A4	Appendix 4	Tables (pages 202 to 222)	Delete the schedule and replace with the schedules as attached below.	The Infrastructure Delivery Plan (IDP) has been updated in consultation with service providers and partner authorities and in the light of new evidence base. The IDP Update 2012 contains revised infrastructure schedules which provide an updated position on infrastructure provision. The	The list provided in Appendix 4 has been provided for clarity, and is for reference purposes only as it will be updated annually as development occurs. It is therefore unlikely that the list itself would have an adverse effect on

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
				revised schedules are included in Appendix 4 as represented in the IDP Update 2012. However, the IDP as a living document will continue to be updated.	sustainability. It is clear that the exact nature of impacts of development will only become clear through detailed assessment once the form of the development is known. However, in order to ensure impacts on sustainability are considered it is suggested that the wording is amended to include a clause specifying that all developments will need to adhere to levels of sustainability as high as possible.

Table A14: Schedule of Changes - Appendix 6(W.Northants Monitoring Framework)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC001/ A6	Appendix 6 - Monitoring Framework	Objective 1 - Table Layout	<p>In the table column originally titled "Main Agencies (for delivery)" merge with the adjacent right-hand column titled "Source (for monitoring data) and change the name to the following:</p> <p>"Main Agencies (for delivery) / Source (for monitoring data)"</p> <p>This change is repeated in all subsequent objectives for the format of the Monitoring Framework table.</p>	<p>It is felt that these columns can be effectively merged due to the significant degree of overlap between the agencies responsible for delivery and subsequent sources of data. The 'oblique' (/) symbol is used in the text for each indicator to separate delivery agencies and data sources to ensure the roles remain defined.</p>	<p>No changes to the significance of the effects predicted in the SA (2011).</p>
PC002/ A6	Appendix 6 - Monitoring Framework	Objective 1 - Table Layout	<p>In the table column originally named "Source (for monitoring data)" change the heading to the following "Trigger"</p> <p>This change is repeated in all subsequent objectives for the format of the Monitoring Framework table.</p>	<p>This column is now included as an essential component of the 'triggers and contingencies' mechanisms introduced in Policy S6 and Section 17</p>	<p>No changes to the significance of the effects predicted in the SA (2011).</p>

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)

A6	Framework		"Target is 0 permissions granted contrary to advice"	points to monitor delivery of the policy.	of the effects predicted in the SA (2011).
PC021/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 4	In the column now titled "Contingencies" insert the following text: "Identify cause and consider justification. Review implementation. Consider any remedial action Consider policy review"	To provide contingency measures that may be considered if delivery of the policy is considered to be ineffective.	No changes to the significance of the effects predicted in the SA (2011).
PC022/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 5	In the original text of the indicator remove the following: "(LTP Indicator (LTP5))"	To reflect the change in the monitoring of indicators in the Northamptonshire Transport Plan. Relevant data can still be reported locally.	No changes to the significance of the effects predicted in the SA (2011).
PC023/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 5	In the text of the original target remove the following "No specific target in Policy BN9"	Removes unnecessary reference to Policy BN9 covered elsewhere in the table.	No changes to the significance of the effects predicted in the SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC024/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 5	In the column titled "Main Agencies (for delivery) / Source (for monitoring data) remove the words "NCC Highways" from the original text Insert the following text moved from the column previously titled "Source (for monitoring data)": "/ LAs, DEFRA Reporting"	To remove the reporting requirement previously covered by Northamptonshire County Council but not currently part of the Northamptonshire Transport Plan. To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).
PC025/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 5	In the column now titled "Trigger" insert the following text: ">5% increase in no of properties within designated AQMA;s, based on no of properties at 01/04/2011"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC026/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 5	In the column now titled "Contingencies" insert the following text: "Identify causes and identify what planning related solutions are available"	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			Discuss with partners potential solutions"	to be ineffective.	
PC027/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 6	In the text of the original target remove the following "No specific target in Policy BN9" Change the Additional Policies Delivered from "S10; BN8" to "S10; BN8; BN7"	Removes unnecessary reference to Policy BN9 covered elsewhere in the table. Reflect the full range of policies covered by the indicator.	No changes to the significance of the effects predicted in the SA (2011).
PC028/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 6	Insert the following text moved from the column previously titled "Source (for monitoring data)": "/ EA"	To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).
PC029/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 6	In the column now titled "Trigger" insert the following text: "Decrease of 5% in river lengths assessed of good biological / chemical quality"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC030/ A6	Appendix 6 - Monitoring Framework	Objective 1, Indicator 6	In the column now titled "Contingencies" insert the following text: "Identify causes and identify what planning related solutions	To provide contingency measures that may be considered if delivery of the	No changes to the significance of the effects predicted in the

			Monitoring"	monitoring data.	
PC038/ A6	Appendix 6 - Monitoring Framework	Objective 2, Indicator 2	In the column now titled "Trigger" insert the following text: "Any significant potential delay in the supply of infrastructure affecting housing / employment delivery identified in the Annual monitoring of the Infrastructure Delivery Plan"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC039/ A6	Appendix 6 - Monitoring Framework	Objective 2, Indicator 2	In the column now titled "Contingencies" insert the following text: "Identify the problem and barriers / causes preventing infrastructure delivery. Dialogue with developers / statutory undertakers / LA partners re resolving the problem Discussion of alternative solutions / reassessment of need and/or timing of infrastructure need. Review of IDP phasing, timing and funding for infrastructure required to deliver necessary infrastructure."	To provide contingency measures that may be considered if delivery of the policy is considered to be ineffective.	No changes to the significance of the effects predicted in the SA (2011).
PC040/ A6	Appendix 6 - Monitoring Framework	Objective 3, Indicator 1	Delete the text in the former Indicator 1 for Objective 3 that read: "NI 167 - Congestion - Average Journey Time per mile during the morning peak (Local Transport Plan (LTP) Indicator)" Delete the content of all subsequent content in this row that	To reflect revocation of the National Indicator dataset and the current format of the Northamptonshire Transport Plan	No changes to the significance of the effects predicted in the SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			read: "See LTP Targets" and "C1" and "C2, C3, C4, C5, N3, N4, N5, N6, N7, N8, N9, N11, N12, D1,D3, D4, D5, T1, T2, T3, T4, B1, B2, B3, B4" and "SA Obj 1/2" and "LPAs, NCC Highways, HA, WNDC, Developers" and "DfT, HA, NCC Highways,"	which no longer contains this indicator used to set the target. Development of the NTP and its suite of daughter documents will continue to be reviewed and opportunities sought to develop the target locally in future monitoring.	
PC041/A6	Appendix 6 - Monitoring Framework	Objective 3, Indicator 2	In the text of the original indicator, change the term "Local Transport Plan" to "Northamptonshire Transportation Plan" and remove the words "(LTP Indicator)" and the end of the paragraph.	To reflect the change in name of the Local Transport Plan to the Northamptonshire Transportation Plan and reflect removal of the specific LTP indicator for transport programmes.	No changes to the significance of the effects predicted in the SA (2011).
PC042/A6	Appendix 6 - Monitoring Framework	Objective 3, Indicator 2	Change the original text of the target that read:	To reflect the change in status of the NTP and the	No changes to the significance of the effects

PC143/A6	Appendix 6 - Monitoring Framework	Objective 12 Indicator 1	In the column now titled "Trigger" insert the following text: ">10 schemes with >5,000sqm each in a rolling 5 year period"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC144/A6	Appendix 6 - Monitoring Framework	Objective 12 Indicator 1	In the column now titled "Contingencies" insert the following text: "Review monitoring target Review policy implementation with stakeholders Review policy"	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).
PC145/A6	Appendix 6 - Monitoring Framework	Objective 12 Indicator 2	In the column titled "Main Agencies (for delivery) / Source (for monitoring data) insert the following text moved from the column previously titled "Source (for monitoring data)": "LPAs, WNJPU Monitoring"	To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC146/ A6	Appendix 6 - Monitoring Framework	Objective 12 Indicator 2	In the column now titled "Trigger" insert the following text: ">40% rural exception sites include an element of market housing in a rolling 3 year period" or The proportion of market housing on any individual rural housing exception sites exceeds 25%"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC147/ A6	Appendix 6 - Monitoring Framework	Objective 12 Indicator 2	In the column now titled "Contingencies" insert the following text: "Examine evidence Review development management policies and practice Review triggers Review policy"	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).
PC148/ A6	Appendix 6 - Monitoring Framework	Objective 13 Indicator 1	In the column titled "Main Agencies (for delivery) / Source (for monitoring data) insert the following text moved from the column previously titled "Source (for monitoring data)": "LPAs, WNJPU Monitoring"	To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).
PC149/ A6	Appendix 6 - Monitoring Framework	Objective 13 Indicator 1	In the column now titled "Trigger" insert the following text: ">5% applications are for demolition and complete re-build or	To provide appropriate trigger points to monitor	No changes to the significance of the effects

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
			new build (not related to Agriculture, horticulture or forestry)"	delivery of the policy.	predicted in the SA (2011).
PC150/A6	Appendix 6 - Monitoring Framework	Objective 13 Indicator 1	In the column now titled "Contingencies" insert the following text: "Review monitoring target Review policy"	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).
PC151/A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 1	In the original text of the indicator remove the words "(following Core Output Indicator E2)"	To reflect revocation of Government guidance on the Core Output Indicators.	No changes to the significance of the effects predicted in the SA (2011).
PC152/A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 1	In the original wording of the text for the target column remove: "No Specific Target in Policy BN2"	Removes unnecessary reference to Policy BN2 covered elsewhere in the table.	No changes to the significance of the effects predicted in the SA (2011).
PC153/A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 1	In the column titled "Main Agencies (for delivery) / Source (for monitoring data) insert the following text moved from the column previously titled "Source (for monitoring data)": "Northamptonshire BAP, LPAs, WNJPU Monitoring"	To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).

Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC154/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 1	In the column now titled "Trigger" insert the following text: "A decrease in designated areas on a rolling 3 year basis"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC155/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 1	In the column now titled "Contingencies" insert the following text: "Identify the reasons / causes and discuss with partners, including the Wildlife Trusts to determine what action, if any, is required Assist with identifying sources of finance to address the situation Consider a review of the monitoring trigger Consider a review of the policy."	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).
PC156/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 2	Replace the wording of the original indicator which read: "Development delivering a net gain of residential units within 900m on Upper Nene Valley Gravel Pits SPA Boundary" With text that reads: "Development designed to take account of bird sightlines within 250 m of the Upper Nene Valley Gravel Pits SPA Boundary"	To reflect Changes made to Policy in the Joint Core Strategy.	No changes to the significance of the effects predicted in the SA (2011).

Table A13: Schedule of Changes - Appendix 4 (W. Northants Infrastructure Schedule)					
Change ID	Section of the Pre-Submission JCS	Policy/ Paragraph	Proposed Change	Reason for Change	SA Assessment
PC157/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 2	Replace the wording of the original target which read: "Policy BN4 - No net gain of units to be permitted" With text that reads: "All development in 250m zone to show no negative impact on bird sightlines"	To reflect Changes made to Policy in the Joint Core Strategy.	No changes to the significance of the effects predicted in the SA (2011).
PC158/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 2	In the column titled "Main Agencies (for delivery) / Source (for monitoring data) insert the following text moved from the column previously titled "Source (for monitoring data)": "LPAs, WNJPU Monitoring"	To reflect the change in column headings and provide detail on the sources of monitoring data.	No changes to the significance of the effects predicted in the SA (2011).
PC159/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 2	In the column now titled "Trigger" insert the following text: "Review all consents within designated 250m zone and the protection area"	To provide appropriate trigger points to monitor delivery of the policy.	No changes to the significance of the effects predicted in the SA (2011).
PC160/ A6	Appendix 6 - Monitoring Framework	Objective 14 Indicator 2	In the column now titled "Contingencies" insert the following text: "Review development management policies and practices Review monitoring target Review policy"	To provide contingency measures that may be considered if delivery of the policy is considered	No changes to the significance of the effects predicted in the SA (2011).
